

1/2" Brass Electric Solenoid Valve Water Air Fuels Normally Closed N/C

Package Include:

- 1× 1/2" electric solenoid valve
- 1× use manual

Feature:

- Wattage: 24W
- Pipe size: 1/2"
- Thread type: G1/2"
- Internal Orifice: 20MM
- Working Voltage: DC 12V, DC 24V, AC 220V, please choose a voltage version
- Type: normally closed (power on, solenoid valve open; power off, solenoid valve close)
- Working Temperature: -5℃~100℃
- Operating Pressure: 0~1.0Mpa (0~10kg/cm²)
- Material of valve body and coil: 100% Brass
- Usage: water, air, diesel, gas, low viscosity fluids
